

DR WEIGLEIN

BURLINGTON'S #1 PLASTIC SURGEON

NEW! SCULPTRA™ FACIAL VOLUMIZER

Sculptra is the first and only approved injectable volumizer that restores fullness of the face without surgery. And Dr. Otto Weiglein is one of the first Canadian surgeons trained to provide this service.

What is Sculptra?

Sculptra is a synthetic injectable material known as "poly-L-lactic acid". This material is biocompatible (a material that does not harm the body) and biodegradable (able to be broken down by the body). Poly-L-lactic acid has been widely used for many years in dissolvable sutures, soft tissue implants, and other types of safe implants.

How does Sculptra work?

Sculptra is injected below the surface of the skin in the areas of fat loss. As we grow older, fat and collagen depletion makes us look sunken or hollow. Sunken cheeks, indentations, and hollow eyes regain lost volume over time by Sculptra's

ability to promote production of your body's own collagen.

What can you expect?

Sculptra provides a gradual restoration of facial volume. Visible results appear slowly after the first treatment session. Treatments are scheduled over a period of weeks. Clinical trials prove Sculptra safe and well tolerated, providing results for up to two years in most patients. Touch up treatments may be needed to maintain the desired effect.

The Sculptra treatment program does not require anaesthesia; there are no incisions; and there is No Downtime!

Are you a suitable candidate for Sculptra? Book an appointment with Dr Weiglein to see if Sculptra is suitable for you to correct the signs of aging and facial volume. Call 905-634-5573 Now!

You can show the world a younger looking you

If you'd like to look - and feel - years younger, Dr Weiglein can help. He's an internationally trained plastic surgeon with over 15 years of experience, whose face lift techniques and laser resurfacing have helped hundreds of women turn back the clock. You'll be glad to know that Dr. Weiglein cares. He'll talk to you, explain everything and strive to give you the care you need, for the look you want.
