SERVING THE HALTON REGION FOR OVER 35 YEARS

Appleby Systems Fireplace Heating and Air Conditioning Contractors is proud of their showroom featuring quality products from Coleman Heating and Air Conditioning, Bryant Heating and Air Conditioning, Regency, Hampton Gas Fireplaces as well as humidification and air cleaning equipment.

This large fireplace is just one of many available for purchase at Appleby Systems new showroom.

Appleby Systems is located in Oakville at 2086 Speers Road between Third Line Road and Bronte Road on the south side. There is also a second showroom located in Georgetown at 118 Guelph Street. Showroom hours at both locations are Monday to Friday 9 a.m. to 5 p.m. and Saturdays 11 a.m. to 4 p.m. or by appointment.

Appleby Systems provides sales, service and installation of gas and electric furnaces, air conditioners and heat pumps, gas and wood fireplaces, electronic air cleaners, humidifiers, air purifiers, hepa and media filters and heat recovery ventilators. They also specialize in custom duct systems to replace hot water or electric baseboard heating systems.

Maintenance and service is provided by qualified factory trained personnel in radio dispatched vehicles. They offer emergency service, planned maintenance contracts, as well as parts and labour plans for HVAC and fireplace equipment.

The main focus of the new Regency showroom is gas fireplaces. Regency equipment on display includes gas stoves, gas inserts and direct vent units with mantles. Cast iron units on display include a Hampton Insert.

They cannot display all the different Regency Fireplace options available but you are welcome to come in and design your own fireplace at the new computer kiosk located at the store. You can leave with a colour picture and itemized quote for your new fireplace.

Come in and visit the showroom, or visit their website at www.appleby systems.on.ca or call them for more information at 905-825-1923.
