Luck favours the prepared. Lucky you!  
quattro all-wheel drive. Experience quattro all-wheel drive at AudiCentre Oakville.

On March 3rd, 1980, Audi presented the world with a new way to drive.  
Today, with a 25-year head start, there's **quattro**. And not quite.

An all-wheel drive passenger car, with a turbocharged engine – a five cylinder variant  
at that...what was Audi thinking?

Ahead, that's what. Nearly 50 years after we introduced Germany's first front-wheel  
drive car, we doubled up and showed the world the future: All-wheel drive. Four driven  
wheels. We call it **quattro**, we still do.

When it comes to four driven wheels, there will always be quattro. And not quite.
