

# CHIROPRACTIC & GOOD HEALTH

Chiropractors  
of Oakville

## If you think... chiropractors only treat bad backs

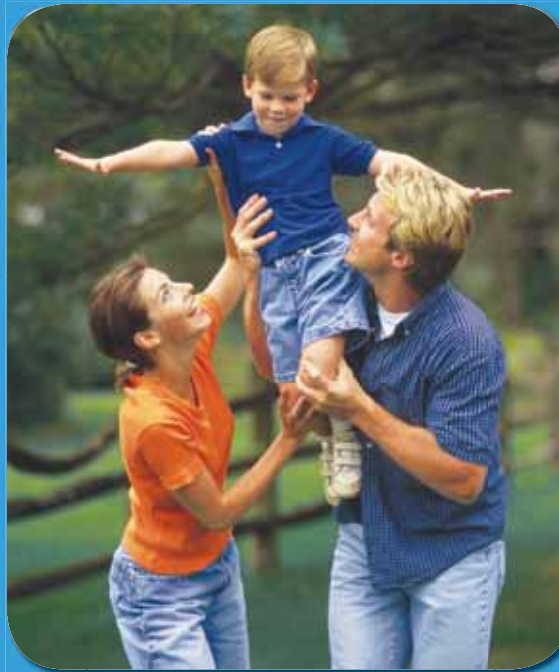

Doctors of chiropractic are widely known for their effectiveness in treating structural problems, particularly those involving the neuromusculoskeletal system.

It's easy for most people to identify chiropractic with the neck, back and spine. But what many people don't realize is that since the spinal column carries the nerves from the brain to all the organs of the body, a dysfunction of the spine could cause any number of other types of health problems felt in other parts of the body.

Headaches. Stomach problems.  
Muscular disorders. Loss of energy.  
Reduced performance. Even allergies!

When you think of a Doctor of Chiropractic, think of the attainment and maintenance of good health without the use of drugs or medications. Think of a safe alternative approach to health care.

**THINK CHIROPRACTIC!**

# think again!

**CHIROPRACTIC ...  
The Original Wellness Care**
